Dear Parent/Guardian of Fifth Grade students,

The New Jersey Department of Health and Senior Services requires all students entering the sixth grade to receive one booster dose of the Tetanus, diphtheria, and pertussis (Tdap) vaccine and one dose of the meningococcal vaccine. Compliance is mandatory before the start of the school year in September. Your child may be excluded from school if these immunization requirements are not met. Please note there are age restrictions on the meningococcal vaccine, if your healthcare provider indicates these restrictions apply to your child please notify your school nurse so provisional status may be granted.

If these vaccinations have already been administered, please send documentation from your healthcare provider to your child's school nurse. If they have not, we strongly recommend that you schedule an appointment with your healthcare provider **NOW** to be ready for next fall. Once the immunizations have been completed, submit the documentation from your healthcare provider to your child's school nurse.

Thank you for your prompt attention to this matter.

Sincerely,

*C. Mignogna RN*  
DIS School Nurse

*M. Nicastro RN*  
DMS School Nurse
